

## Dual Tri Quad Band Repeater 26dBm Five Frequency Industrial Signal Booster

Our Product Introduction

for more products please visit us on [signals-booster.com](http://signals-booster.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: JIAYI
- Model Number: JY836A
- Price: \$168.00/sets 1-19 sets
- Packaging Details: Normal pack

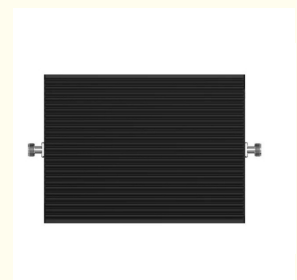

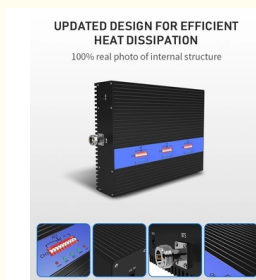

### Product Specification

- Type: 4G Signal Booster
- Network: 4g, GSM, 3G
- Gain: 80dB
- Frequency: 900/1800/2100MHz
- Power: 26dBm
- Max Output Power: +23dBm/±3DBM Total Power
- Coverage Area: 1000-1500 Square Meters
- Cellular Networks: 2g/3g/4g
- Color: Black
- Package Size: 45cm\*35cm\*25cm
- Package Weight: 6kg
- Quality Warranty: 24month
- Highlight: Quad Band Repeater 26dBm, Five Frequency Industrial Signal Booster, 26dBm Industrial Signal Booster

## Product Description

To choose from, we have single frequency dual frequency triband frequency quad frequency five frequency device , high po

To choose from, we have single frequency dual frequency triband frequency quad frequency five frequency device , high power high gain device, with AGC ALG device...

Single band frequency :

900,1800,2100,FDD2600,850,800,700,1900,1700,TDD2600,TDD2300 ,TDD1900

Dual band frequency :

900/1800,900/2100,1800/2600,850/1900,800/1800,850/1700,1800/2100,900/2300,1800/2300,1700/2100

Triband frequency :

900/1800/2100,850/1800/2100,900/1800/2600,900/2100/2600,1800/2100/2600

Quad band frequency :

850/900/1800/2100,900/1800/2100/2600,700(B28)/900/1800/2100.

Five band frequency :

850/900/1800/2100/2600,800/850/900/1800/2100,850/900/1800/1900/2100,800/700/900/1800/2100,900/1800/2100/2300/850.

***A mobile phone signal repeater provides the ultimate solution in any area where cellular communications can not work well due to***

***leak of signals.***

### ***Introduction of Mobile Phone Signal Repeater***

#### ***1. Enhance Mobile Phone Signal Strength***

#### ***2. Improve Communication Quality***

#### ***3. Reduce Cellphone Radiation***

#### ***4. Protract Cellular Battery Life***

#### ***5. Economic Building Cost***

#### ***6. Easy Operation***

#### ***7. Easy Installation***

***\* With unique appearance design, good cooling function***

***\* With MGC (Manual Gain Control) function, you can adjust the gain as needed ;***

***\* With DL signal LED display, help to install the outdoor antenna at the best state;***

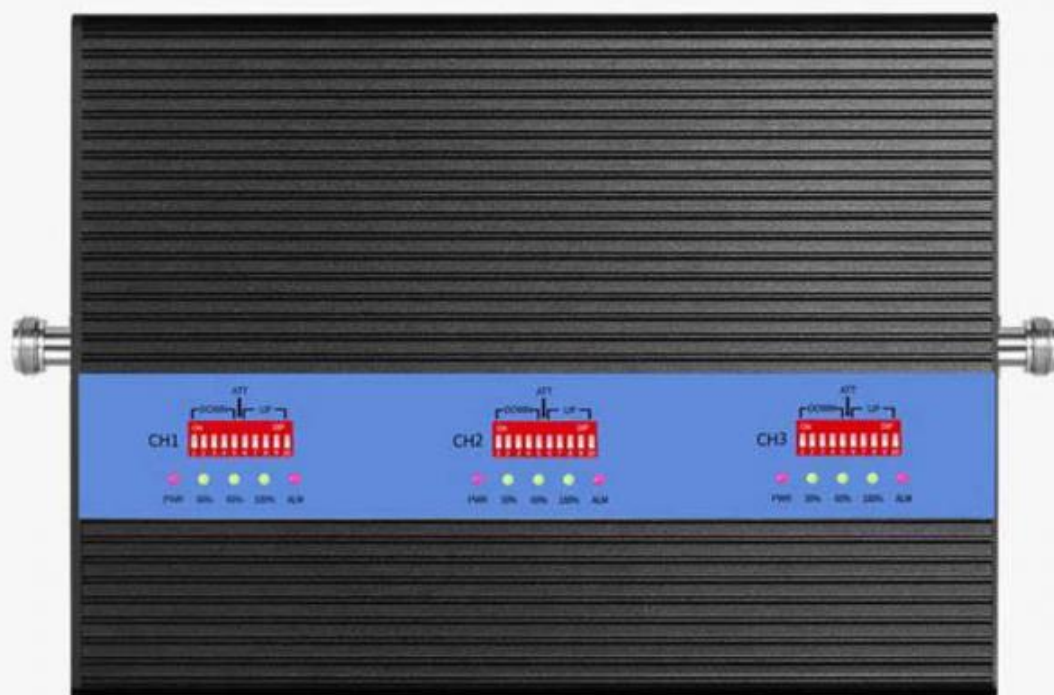

***\* With AGC and ALC, make repeater work stable.***

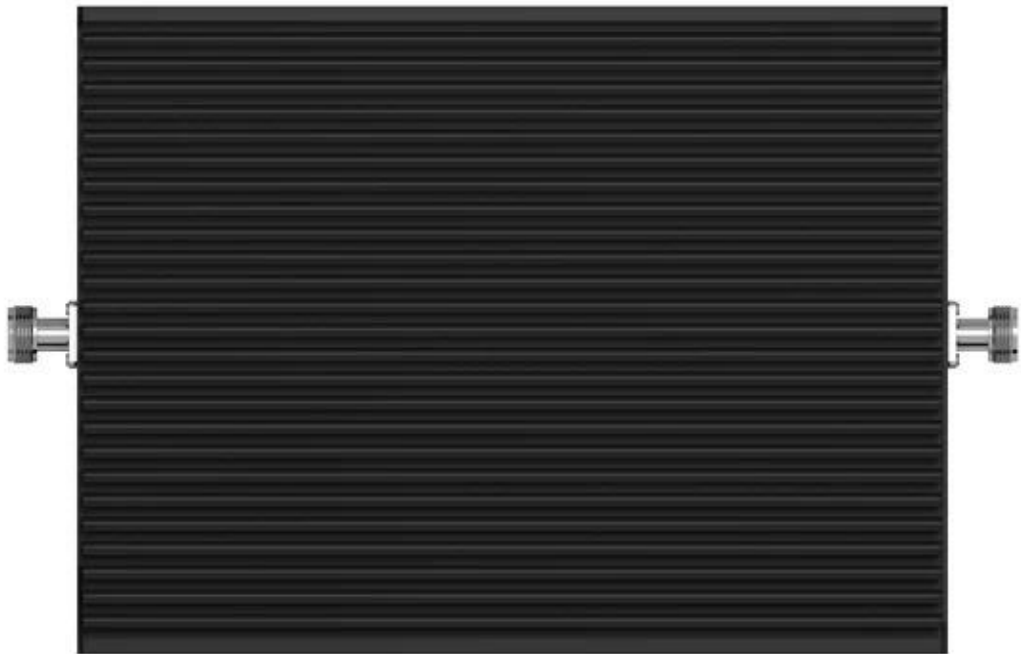

***\* PCB with isolation function, make UL and DL signal not influence each other,***

***\* Low intermodulation, high Gain, stable output power***

*Product Description*

#### Specification

item	value
Place of Origin	Guangdong China
Brand Name	JIAYI
Model Number	JY836A

Operating Temperature	-10 -60
Gain	80DB
Frequency	900/1800/2100MHZ
Package Size	45cm×35cm×25cm
Max Output Power	+23dBm/±3DBM Total power
Color	Black
Package Weight	5kg
Coverage area	1500 Square Meters
Quality warranty	24month

### Accessories and Installation

**Search a location where can receive good signal ( $\geq -70$ dB).**  
**Install outdoor antenna, towards to the base station or cell tower.**

**Connect indoor antenna to the booster "Mobile" side by cable.**  
**(Outdoor antenna to the booster "BTS" side.)**

**Please check if all connectors are connected well after assembled.**  
**And turn on the power.**

### Application

### Packing & Delivery
