

2.4 GHz Parabolic Grid Antenna 1.5kg Lightweight Parabolic Antenna 48dbi

Our Product Introduction

for more products please visit us on signals-booster.com

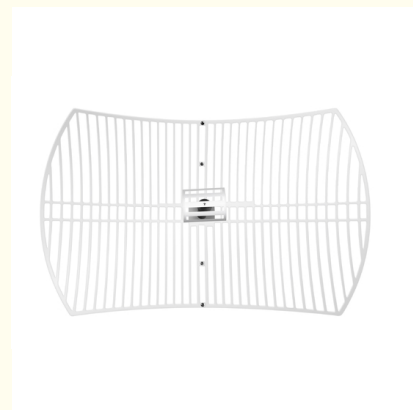

Basic Information

- Place of Origin: China
- Brand Name: JIAYI
- Model Number: JY0002
- Price: \$60.00/sets 1-9 sets
- Packaging Details: Normal packing

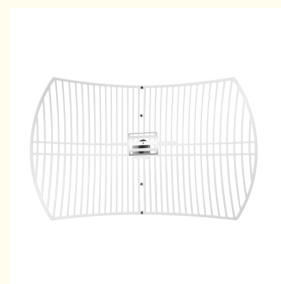

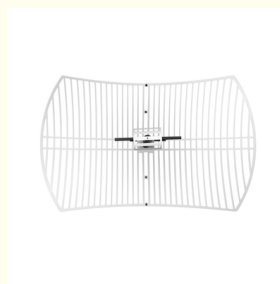

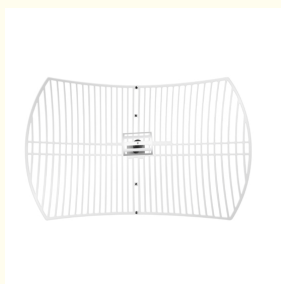

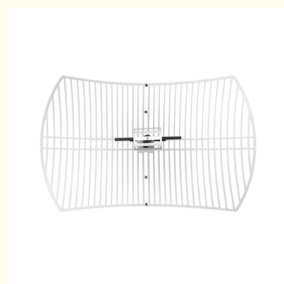

Product Specification

- Type: 2.4GHz & 5GHz Antenna
- Gain: 2x24dBi
- Name: Outdoor Omni Antenna
- Frequency Range: 1710-2700MHz
- Warranty: 2 Year
- Weight: 1.5kg
- Highlight: 2.4 GHz Parabolic Grid Antenna 1.5kg,
1.5kg Parabolic Antenna 48dbi,
Lightweight Parabolic Antenna 48dbi

Product Description

Secure Parabolic Grid Antenna 1.5kg Lightweight Design for Long Distance Connections

Overview

Quick Details

Type: Base station Antenna Place of Origin: Guangdong, China

Gain: 2x24dBi Connector: N type or customized

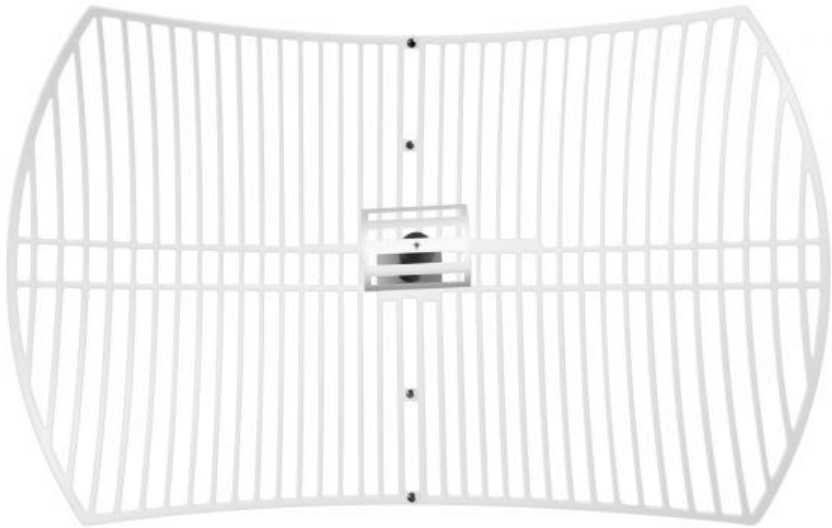

Frequency Range: 1710-2700MHz Polarization: Vertical and Horizontal

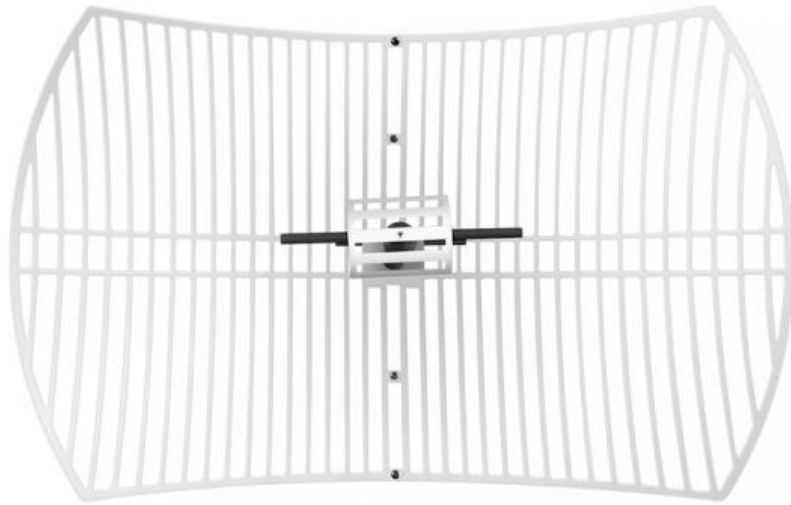

VSWR: 1.5

Lead Time:

Quantity(Pieces)	1-50	50-100	>100
Est. Time(days)	5	10	To be negotiated

Products Description

Specification

Frequency Range	1700-2700MHz
Bandwidth	1000MHz
Gain	2x24dBi
Polarization	Vertical and Horizontal
Horizontal Half-power Beam Width	14°
Vertical Half-power Beam Width	10°
F/B Ratio	≥31
VSWR	≤1.5
Input Impedance	50 Ω
Maximum input power	100 W
Lightning protection	DC Ground
Input connector type	2 x N Female
Dimensions	60x90cm
Antenna weight	2.6kg
Radome material	Die-cast Aluminum
Radome color	Gray
Operating temperature	-40 85
Mounting way	Pole Mounting

Company Profile

Shenzhen Jiayi Communication Technology Co., LTD. Has been in the communication industry for 20 years. We have a strong design and development of signal amplifier technology, the production of signal amplifier manufacturing capacity. Can solve Europe and the United States, Asia, the Middle East and other regions poor mobile signal problem, with strong technology, quality products, service customers around the world, to solve the problem of numerous customers mobile phone no network signal, poor network signal, our company will continue to research and development, innovation. In the 5G era, our 5G mobile signal

enhancer will also come out. I hope that our company will continue to develop, innovate and serve more customers
